## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, 18-20, 34-47 and 51-53, drawn to controlling of LEDs, classified in class 315, subclass 362.
- II. Claims 15-17, 21-23, 48-50 and 54-56, drawn to data processing with displayed image, classified in class 707, subclass 104.1.
- III. Claims 24-33 and 59-68, drawn to data processing responsive to illumination of an environment, classified in class 700, subclass 17.
- IV. Claims 57-58, drawn to computer keyboard with ability to light associated keys with LEDs, classified in class 701, subclass 213.
- V. Claims 69-74, drawn to illumination system responsive to information system in a computer room, classified in class 702, subclass 188.

Inventions I, II, III, IV and V are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because group I is directed to information processing with LED illumination device having controller for controlling LEDs, group II is directed to information processing with displayed images, group III is directed to information processing responsive to illumination system to

illuminate an environment, group IV is directed to computer keyboard with ability to light associated keys with LEDs and group V directed to illumination system responsive to information system to illuminate indicators used to control components. The subcombination has separate utility such as, for example, providing illumination in vehicles.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
